

Below are a few new policies that you will need to look through and have signed before coming to camp this year.

Please take some time and read the policy that applies to you.

CAMPER TECHNOLOGY POLICY

Tidal River Christian Camp (TRCC) is a time to take a much needed break from the routines of life and to focus our energies toward planned programs, activities, and spiritual learning. To facilitate this focus, **NO** personal electronic devices (PED) of any kind shall be allowed during the camping season. Non-compliance, like with other prohibited items, will result in confiscation of the device(s) until departure. It is the weekly Directing Staff's responsibility to ensure this policy is being enforced and any confiscated devices are safely stored.

However, the TRCC Board of Directors understands that there are some rare instances where the use of such devices may be necessary to accommodate the specific, medically based needs of the camper. In those rare instances, for those campers that have a medical need, such devices must be defined and approved in the camper's medical Plan-Of-Care.

It is the weekly Directing Staff's responsibility to coordinate with the camper's counselor(s) to ensure this plan-of-care is being followed. Even for approved use cases, non-compliance would result in one warning and then confiscation of the device until departure.

All other communications originating outside the camp, for campers, shall come through the official TRCC camp phone.

For questions and concerns regarding this policy, please contact Anthony Castillo @ president@tidalriverchristiancamp.com.

COUNSELOR / COUNSELOR-IN-TRAINING (CIT) TECHNOLOGY POLICY

Tidal River Christian Camp (TRCC) is a time to take a much needed break from the routines of life and to focus our energies toward planned programs, activities, and spiritual learning. To facilitate this focus, **LIMITED** use of personal electronic devices (PED) shall be allowed during the camping season.

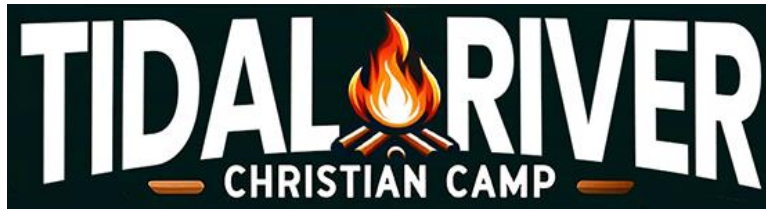

The following rules apply in conjunction with this **LIMITED** use policy:

1. During the course of their normal duties, counselors and CITs shall use two-way radios for all routine and emergency communications.
2. PEDs shall be allowed at defined times and places when counselors/CITs are on break and not acting in a camper supervisory role.
3. PEDs shall, under no circumstances, ever be used inside the cabin.
4. PEDs shall be safely stored and maintained in a location determined and agreed upon by the Directing Staff.

Non-compliance would result in one warning and then confiscation of the device until departure. It is the weekly Directing Staff's responsibility to ensure this policy is being enforced and any confiscated devices are safely stored.

All other communications originating outside the camp, for counselors / CITs, shall come through the official TRCC camp phone.

For questions and concerns regarding this policy, please contact Anthony Castillo @ president@tidalriverchristiancamp.com.

STAFF TECHNOLOGY POLICY

Tidal River Christian Camp (TRCC) is a time to take a much needed break from the routines of life and to focus our energies toward planned programs, activities, and spiritual learning. To facilitate this focus, **LIMITED** use of personal electronic devices (PED) is strongly encouraged during the camping season.

However, the TRCC Board of Directors understands that there are some instances where the use of PEDs may be necessary to allow for personal and work related communication. The TRCC Board of Directors also understands that there are instances where the use of PEDs may be used to take photos and videos of planned programs and activities, as well as in support of planned programs and activities. In those instances, staff are allowed to use their PEDs in such a way as to not be a distraction to the planned program and activities. It is the weekly Directing Staff's responsibility to ensure this policy is being followed.

All other communications originating outside the camp, for staff, shall come through the official TRCC camp phone.

For questions and concerns regarding this policy, please contact Anthony Castillo @ president@tidalriverchristiancamp.com.

TECHNOLOGY POLICY ACKNOWLEDGEMENT FORM

I understand that Tidal River Christian Camp (TRCC) is a time to take a much needed break from the routines of life and to focus our energies toward planned programs, activities, and spiritual learning. I hereby acknowledge that I have received and read the applicable copy of the Tidal River Christian Camp (TRCC) Technology Policy.
